It had already missed a bunch dates when I got it to look at. ☺

Thanks, Mary

Because it has target timeframes, I think we should at least add that they will provide it to us. Maybe not for "legal sufficiency" review, but for review and for keeping up with what's going on/are they meeting the timeframes.

Go for it.

After all I did have a couple of comments on that SCAMP. But I am not sure it needs to be categorized as legal sufficiency review.

Thanks, Mary

Perhaps if we want to be as thorough as possible, we could suggest that they include it. Otherwise, I have no issues with ECRCO's edits.

I don't have strong feelings one way or the other. Maybe tentatively add it and ask them why they didn't include it?

Do you think it is worth identifying in our column on the roles and responsibilities document?

Hi all-

Please see the attached draft Case Management Plan (CMP). I will check calendars for next week to see if we can begin discussions about reaching out to the complainant and the recipients regarding informal resolution options.

Let me know if you have any questions or comments/edits to the CMP.

Good morning all-

As you all know the Hawaii Title VI complaints were formally accepted for investigation on 3/9. I want to let you know that I am currently drafting the case management plan and a timeline. I plan to share those documents with the group and then will schedule a meeting to discuss any comments or reactions. (I am trying to get the document to the group by the end of the week). The most immediate item on the timeline would be to schedule calls with the recipients and the complainants to discuss informal resolution options.

Let me know if you have any questions.
